

School: \_\_\_\_\_

Teacher: \_\_\_\_\_

Grade: \_\_\_\_ Total No. students in class \_\_\_\_

No. students living in city \_\_\_\_\_ country \_\_\_\_\_

The purpose of this tally is to record how students get to and from school each day. On the first day, ask the class by raise of hand if they live within the city or in the country. Record this information above.

1. Ask the class to think about how they came to school. Did they walk to school, ride the bus or maybe walk to a local bus stop. Read through all the potential answers so the students know the choices.

2. Ask students, by a raise of hands, how many kids walk/bike/scoot to a local school bus stop. Count the hands raised and record that number in the School Bus Plus box. Note:

- Students that raise their hand for this may also raise their hand again for Walk, Bike or Scoot, but they should NOT raise their hand again for the School Bus Only option.
- A student that walks to the community bus stop in another town and then rides the bus should be counted as a School Bus Plus and Walker, not a School Bus Only rider.

3. Ask the class by raise of hand to answer “How did you arrive at school or your community school bus stop today?” Record results in the appropriate box along with the general weather that day (Sun, Rain, Overcast, Windy, SNow or COlder than normal).

4. Repeat for walking home and the remaining two days of the week.

5. At the end of the three days, you will need to visit [www.i-walk.org](http://www.i-walk.org), click on the Teacher Tally menu, then the link under Data Collection Forms. There you will enter the data collected from the 3-day tally.

# I-WALK: Teacher Tally

____/____/____ Start Date	Tuesday		Wednesday		Thursday	
	To	From	To	From	To	From
 School Bus Plus						
 Walk						
 Bike						
 Skate/Scoot						
 School Bus Only						
 Family Vehicle						
 Carpool						
 Public Trans.
